

THE NPHC DIFFERENCE

Tree Care Experts

NPHC Inc has been beautifying and caring for residential and commercial landscapes for over 20 years and offers the most comprehensive horticultural and arboricultural knowledge base in the Inland Northwest. We employ more ISA Certified Arborists than any other tree care or landscape company in the region because at NPHC we only deliver professional care.

Our Promise

KNOWLEDGEABLE EXPERTS

PROFESSIONAL SERVICE

SAFE & ETHICAL CONDUCT

Plant Health Care

Our Plant Health Care (PHC) specialists preserve and improve plant health by incorporating proactive and progressive techniques based on proven scientific research, field experience and relevant information exchange with clients. Because each environment is unique, our PHC services are customized to meet the specific needs of your plants, resulting in beautiful and healthy landscapes.

- **Insect & Disease** targeted solutions for your trees and shrubs
- **Fertilization** for your trees, shrubs and lawn
- **Weed Control** for lawns, shrub beds and bare ground
- **Plant Health Care** programs

Pruning

Our ISA Certified Arborists evaluate your trees and shrubs considering safety, health and overall maintenance needs. All recommendations are detailed in writing and made according to the individual age, species, and location of each plant. Our professional crew of arborists guarantees the finest work possible, treating you and your landscape with the utmost respect.

- **Pruning** of all sizes and species of native, ornamental, shade and fruit trees
- **Cabling & Bracing** of all trees and shrubs
- **Root system** excavation, evaluation and treatment

Removals

Our ISA Certified Arborists are trained to utilize modern techniques and equipment to perform removals without damage to your property. Whether climbing, using one of our two bucket trucks or working with a crane, we have years of experience working in tight areas around homes, garages, fencing and other landscape features that require protection. Once the trees are safely extricated, we use high powered chippers and stump grinders to process the debris with ease and efficiency. We pride ourselves on leaving your property in the same or better condition than we we arrived.

- **Low impact** tree and shrub removals
- **Technical Removals** in tight spaces
- **Crane** Removals
- **Stump** Grinding

Testimonials

BOB ROMNEY

NPHC'S expertise allowed a large downed tree to be removed safely from our home. They utilized their knowledge of tree rigging along with their technical experience and equipment, including a crane, to successfully remove the Ponderosa Pine. When they were done, the yard and landscape looked terrific.

OLIVETTE ORME

I love working with NPHC. Their combined talents and areas of expertise, their integrity, and their friendliness are unparalleled in the industry. The staff is just incredible. Each person is polite, personable, and eager to please. There isn't a better company!

HOWARD & JOAN WOOD

We appreciated the efforts of your talented arborists when they did our tree pruning last year. Thanks to your crew's selective pruning, we did not lose a single branch off any of our six Maples or two aging Box Elders during the big storm. We look forward to our continued relationship with trust and admiration.
